**STUDY TOUR with study project - Primary school, Life education.
Study tour to Copenhagen October 7th – 8th and 9th in Haderslev.**

Reserve the days already now - Look forward to experiences with your classmates, both Danish and international!

New student teachers must go on a study trip to the capital. We will investigate and experience how the school services of the major cultural institutions communicate to school children. Hear and talk about the school's purpose and foundations, responsibilities, and tasks.

The tour includes a study project as part of the subject "Life education". It is prepared in groups and presented to each other and teachers when we get back to Haderslev.

The study tour is compulsory for all day students, both Danish and international.
